

# HP Wireless K5510 Keyboard

## Effortless ease of use

The HP Wireless Keyboard is one modern, high-end device. Its sleek, ultra-slim design takes the ordinary keyboard to a brand new level. How does it work? Even better than it looks. Superior functionality combined with brilliant comfort feels amazing to the touch. It's just a dream to type on.

## Wireless Freedom

HP built the Wireless Keyboard with your need to roam in mind. Compatible with most desktops and notebooks, 2.4 GHz wireless connection gives you the liberty to move up to 10m (30ft) away and still type!

## High-end design

HP's Wireless Keyboard screams modern with its ultra-slim shape. Typing feels amazing with the low-profile, scissor-style keycaps that are extra responsive and pleasing to the touch. Plus, adjustable legs promote a more comfortable wrist posture.

## Take it easy

No need to strain your arms: the adjustable keyboard has two possible positions, so you can find the one that exactly suits the way you work. And with ten hot keys to speed you along, you'll be more creative, more relaxed and more productive.

## Trail-blazing HP Link-5 technology

This ingenious software bridges 5 HP-compatible devices<sup>1</sup> together with 1 nano receiver. Connect the HP Wireless Keyboard and you still have room to add 4 more devices without taking up valuable USB ports.
